OVEN CABINET/ INSTRUCTIONS

HOW TO ASSEMBLE/ STEPS 01-04 OF 06

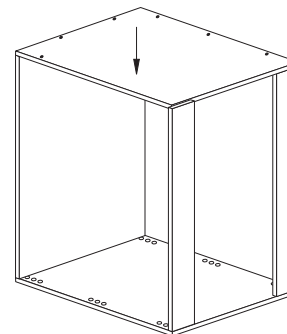

STEP ONE/01

Place the side panel on a flat surface with the edge strip facing down. Join the bottom and two top rails using the location timber dowels and screw fix through the corresponding holes in the side panel with 50mm screws.

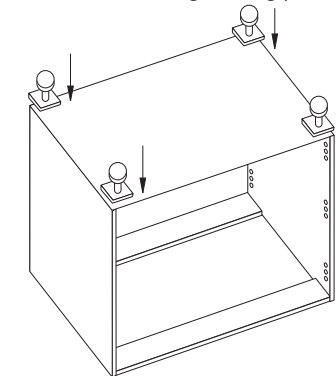

STEP TWO/02

Position the other side panel using the location dowels and fix screw through corresponding holes with 50mm screws.

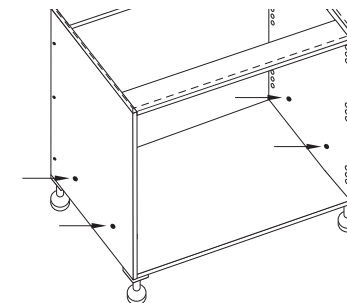

STEP THREE/03

Turn cupboard over, tap the leg plates into corresponding holes and secure with 2 x 35mm screws. Wind legs out so that the overall height is 150mm. Push leg into leg plates.

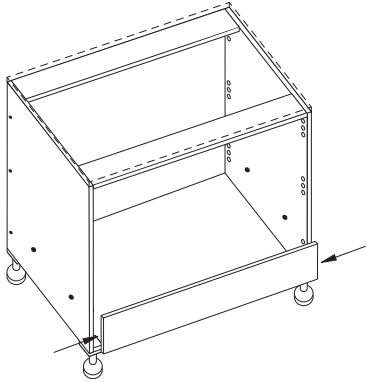

STEP FOUR/04

Turn cupboard over carefully and stand cupboard on its legs. Determine where the oven shelf is to be fixed by referring to your oven installation manual (nominal distance from cabinet base is 126mm). Pre-drill as required.

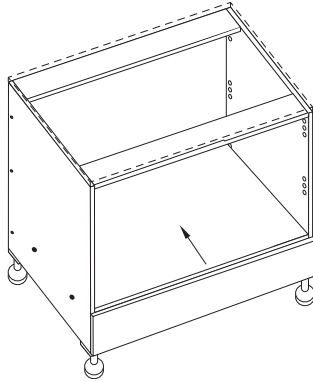

STEP FIVE/05

Fix Oven Panel (sold separately) in place using the angle brackets supplied. This panel covers the gap underneath the oven shelf.

STEP SIX/06

Fix the oven shelf in place through your pre-drilled holes (created in step 4).

INSTALLATION

For installation of this cabinet, please refer to the Strata Kitchens Installation Guide available online at www.stratakitchens.com.au.
